

PAKISTAN AIR FORCE

EXPERIENCE LETTER

This is to certify that **HS-I Saddam Khan (Pak/T-32934)** CNIC No **42401-2154116-3** has served for **Seven Years Five Month** with distinction in multiple technical and engineering capacities within the **Pakistan Air Force (PAF)** from **October 2018 to February 2026**.

During his tenure, Mr. Saddam Khan demonstrated exceptional technical acumen, progressing from avionics repair to advanced software development and test solution engineering. His service history and key responsibilities are detailed below:

Professional Experience

1. C# TPS & .NET Developer (Duration: **February 2023 – February 2026**)

In this role, Mr. Saddam Khan focused on software automation and web application development.

- Developed and maintained Test Program Sets (TPS) utilizing C# and .NET frameworks.
- Built and deployed scalable web applications using ASP.NET MVC and SQL Server.
- Automated complex testing processes, significantly improving operational efficiency and reliability.
- Collaborated effectively with cross-functional teams to deliver critical technical solutions.

2. Test Solution Developer (Duration: **May 2022 – August 2024**)

In this Role, Mr. Saddam Khan contributed significantly to the development of advanced test solutions for the **JF-17 Aircraft**.

- Utilized the Teradyne S9100 test station to design Interface Test Adapters (ITAs) and comprehensive Test Program Sets (TPS). Efficient testing processes and ensured thorough validation and verification of aircraft systems.
- Leveraged a diverse technical stack including C#, C++, HTML, CSS, LabVIEW

3. Avionics Repair Technician (Duration: **October 2018 – February 2023**)

- Performed avionics system repair and maintenance in high-pressure operational environments.
- Applied advanced troubleshooting methodologies to resolve complex technical issues.
- Conducted reverse engineering for legacy and complex avionics systems.

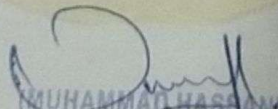

Technical Proficiency

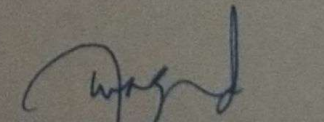

- Programming:** C, C#, HTML, CSS, Java Script, Boot Strap, Dot Net, PHP, and others
- Development Tools:** Git, Visual Studio, LabVIEW, Lab Windows/CVI
- Hardware/Testing:** Teradyne S9100, Pin Point, Avionics ITAs, Reverse Engineering
- Web/Database:** ASP.NET MVC, SQL Serve

Recommendation

Mr. Saddam Khan is highly recommended for roles requiring expertise in avionics systems and software development. His proven ability to streamline testing, automate sequences, and ensure thorough validation has been invaluable to the Pakistan Air Force. His dedication and excellence set him apart.

MUHAMMAD HASSAN
Squadron Leader
O/lc Testing & Dev, AES
